CFS Newsletter: Proud To Be With You

This is Bob, the CFS Editor writing with a brief update about what's happening at CFS. I'm happy to say new newsletter software is now active, so now CFS can write to you again!

You know that June is LGBTQ+ Pride Month across the world, but CFS is here for you no matter what you call yourself – gay, straight, trans, M4M, DL, whatever you want. So many cities are having celebrations this weekend especially, but you don't have to go out to a parade to have fun!

You know that with the Craigslist Personals gone, more cruisers will be out at the bars, the baths, the bookstores, all the places we meet. They'll be horned up and sweaty, seeing all the guys. Some will hook up through apps, of course, but where to go? CFS knows! Come to the [Sex Listings](https://listings.cruisingforsex.com/) <https://listings.cruisingforsex.com/> to find a place to meet.

If you're a CFS Member, you can post your hook-up plans on the [Message Board](https://web.cruisingforsex.com/) <https://web.cruisingforsex.com/> and it'll show up immediately online.

Just to inspire you to come to CFS and post your reviews, here's excerpts from a few of the best recent ones:

About Craigslist, we're not just seeing more visitors at CFS. There's more at your local cruisy spots too! Here's a couple in the the St. Louis area:

[Pleasure Palace Adult Book Store](#) in Brooklyn, IL

Read Review "...This place used to hit and miss, but with Craigslist getting rid of the personal ads, it has become more hit... As I sucked, he asked me if I liked black dick. I said, yes. I then saw him motion for someone to come over. Next thing I knew two black dicks were hanging in my face. I worked both of them and soon a Latino guy joined in. Once I got done sucking them all off, I stood up and saw that everyone was paired up or doing a small group sex..."

Larry Flynt's Hustler Club in Washington Park, IL

Read Review "...There are a lot of horny men who used to rely on CL to get their cocks sucked, who are now cruising the arcade and theaters to get serviced. They're not shy, most are direct and to the point. During my recent couple of visits, I've had men walk up to me in the hallways and ask if I sucked dick. When I responded, yes, they invited me to join them in a booth..."

Some of those "dead malls" or "dying malls" might not be that "dead" after all. For example, the **Greendale Mall** in Worcester, MA

Read Review "Accidental cruising. This place is still definitely active... I was at the mall to do something else and I had to piss. I found the bathrooms were where the food court is. Down a long hallway and into a semi dirty bathroom. I was pissing and I could hear some deep moaning. I stood there for another minute and knew something was up..."

Bathhouses are can still be very active, like **The Watergarden** in San Jose

Read Review "...My last visit was wild! Went to the porn area and cock-worshipped an older Asian dude with a hard, uncut beauty; no cum. Hooked up with a hairy muscle top who liked my ass, fucked me hard in all positions, and came deep in me. Went to the steam room and sucked and swallowed an older Black dude and his meaty cock. Went to the gloryhole play area and got a younger Black dude with his huge cock way up inside me..."

And if you find the right one – check on the Sex Listings – the gym can be sweaty and hot. Try the **LA Fitness** in Oakland Park in the Fort Lauderdale area.

Read Review "...When he removed his towel and started stroking his cock, the real fun began. We took turns watching the door and blowing each other. Then we retired to the shower and the guy with the huge cock fucked the guy with the cock ring, all while I watched the door. Then we switched and the guy with the cock ring plowed my ass. I came hard from being fucked..."

One last quick excerpt from San Diego's **Adult Depot**

Read Review "...By 2 pm I had sucked about twenty cocks and got five facials. Endless cock to suck..."

That's all for now, but just a reminder before I go. Be sure to check the **Heads Up** page https://listings.cruisingforsex.com/heads_up/ for places where it isn't the best idea to cruise now, whether because of police patrols, raids, sting operations, or civilian harassment, etc.

Now go on out, have fun, then come back to CFS and tell us about it!
